

# Adoptium Project Management Committee Agenda & Minutes

“The PMC as a whole, and the PMC leads in particular, are ultimately responsible for ensuring that the Eclipse Development Process is understood and followed by their Projects. The PMC is additionally responsible for maintaining the Top-Level Project’s charter.” [\[ref\]](#)

---

**Date:** 2023-August-16

**Agenda:**

- Approval of [minutes](#) from August 9th meeting.
- Review of outstanding actions.
- Review of [GitHub issues flagged for PMC agenda](#).
- Update on rolling out support for custom CA certificates ([containers#392](#))
- JFrog artifactory upload rate issues - plan for resolution
- AoB

**Action items:**

Date	Description	Status
2023-06-21	ACTION: sxa to ask EF to send notice to end contract with Nine.	Done
2023-07-12	ACTION: sxa to ask EF to set up Slack-Matrix bridge	Done
2023-07-19	ACTION: George to check the EF stance on using AI generated code (ChatGPT/CoPilot)	Done
2023-08-15	ACTION: Tim to update the release notes to show that the AIX now prereqs v7.2. Earlier Temurin releases depended upon AIX 7.1 for all Java versions.	Done

**Attendees**

- ☒ George Adams
- ☒ Stewart Addison
- ☐ Carmen Delgado (guest)
- ☒ Tim Ellison
- ☒ Severin Gehwolf
- ☒ Shelley Lambert
- ☐ Andrew Leonard
- ☒ San Hong Li
- ☒ John Oliver
- ☐ Martijn Verburg
- ☒ Lan Xia

## Meeting called to order at 14:02 BST

### Minutes:

- Approval of [minutes](#) from August 9th meeting.
  - Minutes of the last meeting were approved.
- Review of outstanding actions.
  - Reviewed and updated.
- Review of [GitHub issues flagged for PMC agenda](#).
  - None this week.
- Update on rolling out support for custom CA certificates ([containers#392](#))
  - The new functionality was merged as discussed in the previous meeting.
  - Issues noted were that “sh” removes env vars with “.” in them, so we switched to using “bash” on Alpine to align with other base OSes.
  - Second issue was that we used “entrypoint.sh” as the default image logic, and this conflicted with the use of that name with downstream images. We have renamed our entry point to avoid the conflict.
- JFrog artifactory upload rate issues - plan for resolution
  - Looking for contacts in JFrog to evaluate the reason why our uploads are failing during the end of release cycle.
  - Scott has a manual workaround at the moment, but is looking to fix the scripted mechanism.
  - JFrog have suggested that there is a new Jenkins plug-in to assist with uploading. This may provide some resolution.
  - ACTION: George to link Scott with the folks at JFrog to help resolve upload issues into artifactory.
- AoB
  - Shelley noted that Henning Weise is joining the project for a term to work with the project on secure dev issues under guidance of Andrew Leonard.
