

# Adoptium Project Management Committee Agenda & Minutes

“The PMC as a whole, and the PMC leads in particular, are ultimately responsible for ensuring that the Eclipse Development Process is understood and followed by their Projects. The PMC is additionally responsible for maintaining the Top-Level Project’s charter.” [\[ref\]](#)

---

**Date:** 2024-May-01

## Agenda:

- Approval of [minutes](#) of the April 24th meeting.
- Review of outstanding actions.
- Review of [GitHub issues flagged for PMC agenda](#).
  - Non
- April PSU release 22.0.1, 21.0.3, 17.0.11, 11.0.23, 8u411 - status review
  - Release Status per Platform, Version & Binary Type ([temurin#38](#))
  - Checklist for Temurin Release ([temurin#37](#))
  - Retrospective ([temurin#28](#))
- Update on Ubuntu Noble flavor? ([containers#532](#))
  - Noble is an official base image [https://hub.docker.com/\\_/ubuntu](https://hub.docker.com/_/ubuntu)
  - “Adding New Distributions to Adoptium” [policy document](#) is out for review.
- “Code freeze on new features until all GH Actions / CI checks are green again + Dependencies are updated to latest versions.” (via Martijn [on Slack](#))
  - I think we might collectively need a catch up sprint of a week or two.
  - See also [Slack comment](#)
- Update on GHSA-xrvg-mgj7-p5wh.
- AoB

## Action items:

Date	Description	Status
24-Jan-2024	ACTION: gdams to discuss with JFrog how to use symlinks in Artifactory. Trial this with the ‘Rocky 9’ to ‘Rocky 8’ installer path with a view to further roll-out. (ref	In progress

	<a href="#">installer#801</a> ) Plus: Move yum repositories from SHA-1 to SHA256 signatures <a href="#">(installer#674)</a>	
--	--	--

## Attendees

- ☒ George Adams
- ☒ Stewart Addison
- ☐ Carmen Delgado (guest)
- ☒ Tim Ellison
- ☒ Scott Fryer
- ☐ Severin Gehwolf
- ☒ Shelley Lambert
- ☒ Andrew Leonard
- ☒ San Hong Li
- ☒ John Oliver
- ☐ Martijn Verburg
- ☒ Lan Xia

## Meeting called to order at 14:02 BST

### Minutes:

- Approval of [minutes](#) of the April 24th meeting.
  - Minutes of the meeting were approved.
- Review of outstanding actions.
  - No update.
- Review of [GitHub issues flagged for PMC agenda](#).
  - No issues flagged for PMC.
- April PSU release 22.0.1, 21.0.3, 17.0.11, 11.0.23, 8u411 - status review
  - Release Status per Platform, Version & Binary Type ([temurin#38](#))
  - Checklist for Temurin Release ([temurin#37](#))
  - Retrospective ([temurin#28](#))
  - Release is completed except the retrospective which will be held on Tue 7th May.
- Update on Ubuntu Noble flavor? ([containers#532](#))
  - Noble is an official base image [https://hub.docker.com/\\_/ubuntu](https://hub.docker.com/_/ubuntu)
  - “Adding New Distributions to Adoptium” [policy document](#) is out for review. PMC is encouraged to provide comments before it is enacted.
  - Natural cycle would be for support in the next Temurin release, i.e. July CPU - but this Noble release is an LTS.

- Would require testing on this platform and then production of the Docker images.
- What would happen to the “latest” tag? This may be considered a breaking change if users have been used to getting the previous release.
- Tim will get back to the raiser and explain it will be done ahead of Temurin's next release as an out of sequence update, based upon perception of undue delay to wait. Plan to update the “latest” tag as that would be accurate usage, and those who don't want latest to move can be explicit about the version they use.
- “Code freeze on new features until all GH Actions / CI checks are green again + Dependencies are updated to latest versions.” (via Martijn [on Slack](#))
  - *I think we might collectively need a catch up sprint of a week or two.*
  - See also [Slack comment](#)
  - There are failing Github action checks that should not be ignored to ensure that CI continues to be useful during development. This is insurance against instability in the project.
  - New checks have been added, and everyone needs to be brought up to speed on the value and purpose with respect to project stability and quality.
  - Some discussion about the scope and extent of failures across all Adoptium repos. and ability to keep on top of all of them.
  - Questions about ability to test dependency updates before committing them. Noted that tests on the PR branch would provide helpful feedback, and they are generally shown to go in quite smoothly.
  - The PMC decided that while there may not be a need for a formal code freeze at the moment, developers should be focused on raising issues for failing GH actions etc. and not ignoring them.
- Update on GHSA-xrvg-mgj7-p5wh.
  - Work continues and is moving in the right direction. Hope to get it rolled out soon to get experience ahead of the next scheduled Temurin release.
- AoB
  - Discussion about the license presentation when running an installer on windows. Users should not need to explicitly accept the license but simply be made aware.
    - i. Expect the installer to be updated in due course with this behavior change.

**Meeting closed at 14:36 BST**
