

Adoptium Project Management Committee Agenda & Minutes

“The PMC as a whole, and the PMC leads in particular, are ultimately responsible for ensuring that the Eclipse Development Process is understood and followed by their Projects. The PMC is additionally responsible for maintaining the Top-Level Project’s charter.” [\[ref\]](#)

Date: 2025-January-08

Agenda:

- Approval of [minutes](#) of the December 18th meeting.
- Review of outstanding actions.
- Review of [GitHub issues flagged for PMC agenda](#)
 - Consider pinning Alpine minor versions in image tags ([containers#699](#))
 - Installer debian compatibility with openjdk ([installer#1077](#))
- January CPU release (23.0.2, 21.0.6, 17.0.14, 11.0.26, 8u442)
 - Source tag expected Jan 21, 2025
 - Release champion: Haroon Khel
- Update on GHSA-xrvg-mgj7-p5wh.
- AoB

Action items:

Date	Description	Status
	None	

Attendees

- ☐ George Adams
- ☒ Stewart Addison
- ☐ Carmen Delgado (guest)
- ☐ Tim Ellison

- ☒ Scott Fryer
- ☒ Severin Gehwolf
- ☒ Shelley Lambert
- ☒ Andrew Leonard
- ☒ San Hong Li
- ☒ John Oliver
- ☐ Martijn Verburg
- ☒ Lan Xia

Meeting called to order at 14:05 GMT

Minutes:

- Approval of [minutes](#) of the December 18th meeting.
 - Approved (Scott / Andrew)
- Review of outstanding actions.
 - None.
- Review of [GitHub issues flagged for PMC agenda](#)
 - Alpine version issue deferred to next call
 - Debian installers:
 - i. It looks like the “provides” lines for javaNN-sdk were just omitted into the update, so we decided that it was reasonable to add those back in.
 - ii. We will also raise an issue to discuss whether later versions of java should be providing e.g. java8-sdk (which it is at present for the .deb files but not .rpms)
- January CPU release (23.0.2, 21.0.6, 17.0.14, 11.0.26, 8u441)
 - Build repositories and test repositories are branched
 - One fix for windows signing
 - Dry run builds to execute before the end of the week
 - Solaris will be built and tested via a proxy machine
 - New installer process for Linux will be in place for this release, and Scott will manage the publishing for this release as that is tied in with the new release process.
 - “Re-run on failed (red state) jobs” (RERUN_FAILURE) will be turned on for this release in addition to the existing “Re-run on unstable (yellow state). This will be enabled for the dry runs this week
 - Will confirm availability of Temurin Compliance team members
- Container registries - define next steps on migrating build images to GHCR?
 - Nothing yet, but we’ll want to have this in place by end of Q1
- Azure credit balance
 - Three windows test machines are currently turned off to remain within the burn rate required to keep positive credits by end of year. We will re-enable them temporarily during the dry run and full release cycles
 - IBM Cloud Windows machines are still not accessible to us due to lack of access to their VPN

- Update on GHSA-xrvg-mgj7-p5wh.
 - None
- AoB
 - None
