

Adoptium Project Management Committee Agenda & Minutes

“The PMC as a whole, and the PMC leads in particular, are ultimately responsible for ensuring that the Eclipse Development Process is understood and followed by their Projects. The PMC is additionally responsible for maintaining the Top-Level Project’s charter.” [\[ref\]](#)

Date: 2025-August-20

Agenda:

- Approval of [minutes](#) of the August 13th meeting.
- Review of outstanding actions.
- Review of GitHub [issues](#) and [discussions](#) flagged for PMC agenda
 - Discussion: Should we generate EA builds of GA code? ([ci-jenkins-pipelines#1256](#))
 - Temurin EA Mac & Windows builds are published even if they are not fully Signed correctly ([ci-jenkins-pipelines#1259](#))
- Update on GHSA-xrvg-mgj7-p5wh.
- AoB

Action items:

Date	Description	Status
2025-07-09	George will open an issue with the Eclipse Foundation Infrastructure team to request formal support on resolving the JFrog issues (support#554)	Completed

Attendees

- ☒ George Adams
- ☐ Stewart Addison

- ☐ Carmen Delgado (guest)
- ☒ Tim Ellison
- ☒ Scott Fryer
- ☒ Severin Gehwolf
- ☒ Shelley Lambert
- ☐ Andrew Leonard
- ☐ San Hong Li
- ☐ John Oliver
- ☐ Martijn Verburg
- ☒ Lan Xia

Meeting called to order at 14:04 BST

Minutes:

- Approval of [minutes](#) of the August 13th meeting.
 - Minutes were approved.
- Review of outstanding actions.
 - JFrog action has been completed, with follow-up via users as described last week.
 - Can check via Fastly the return codes that users are getting for the API calls.
 - Still has not been reproduced by the team.
- Review of GitHub [issues](#) and [discussions](#) flagged for PMC agenda
 - Discussion: Should we generate EA builds of GA code? ([ci-jenkins-pipelines#1256](#))
 - i. Would be a way to test that the infrastructure is working for these builds.
 - ii. Need to ensure that the builds are tagged appropriately.
 - iii. Would need a structure in the website to help users find EAs and understand what they are.
 - iv. DECISION: PMC decided that we should generate EA builds of GA code, subject to the points made in the discussion and minuted above.
 - Temurin EA Mac & Windows builds are published even if they are not fully Signed correctly ([ci-jenkins-pipelines#1259](#))
 - i. Andrew is not available to describe this issue, but this sounds like a bug.
 - ii. Believed to be a consequence of the changes to the makefile.
 - iii. This would be a requirement of the macOS builds in a Darwin installer. Windows would require a codesigned msi, and unsigned binaries would produce warnings.
 - iv. Agree that GAs must be codesigned before publication. Others including EA may be ok to publish but we need to know that signing has failed.
- Update on GHSA-xrvg-mgj7-p5wh.

- License for required tooling discussed with EMO.
- Will likely require some updates to the release process.
- AoB
 - September 2025 release of JDK25
 - i. Volunteer for September release champion: Adam Farley
 - ii. Derek and Antonio to meet and share knowledge around Temurin Compliance.
 - iii. Fujitsu staff fully onboarded to Compliance and ready for further onboarding.
 - iv. Do not have access to the JDK25 test material until the JCK is GA. Would expect it within a day or two of the implementation code release.
 - Over a billion downloads of AdoptOpenJDK+Adoptium to date
 - i. Will note to the marketing team for recognition.
 - Jenkins Compliance dashboard
 - i. If this is useful George will contribute to the project and have it hosted formally.
 - ii. Gives a project-centric view that is more consumable by team members, and a view for the infra team to see the health of the project.

Meeting closed at 14:30 BST
