Adoptium
Project Management Committee
Agenda & Minutes

"The PMC as a whole, and the PMC leads in particular, are ultimately responsible for ensuring that the Eclipse Development Process is understood and followed by their Projects. The PMC is additionally responsible for maintaining the Top-Level Project's charter." [ref]

Date: 2025-December-17

Agenda:
- Approval of minutes of the November 26th meeting.
- Approval of statement for December 3rd meeting.
- Approval of statement for December 10th meeting.
- Review of outstanding actions.
- Review of GitHub issues and discussions flagged for PMC agenda
  - Enabled the creation of EXEs via Inno Setup (installer#1298)
- January 2026 release status
  - Expected January 20th (25.0.2, 21.0.10, 17.0.18, 11.0.30, 8u481)
  - Release champion: tbd
  - Compliance champion: tbd
- Infrastructure DDoS response
- Request for comments on proposed compliance project blog post.
- Discuss feedback received from blog post on end of service for Temurin on Solaris and Win32.
- Date of next meeting.
  - 7 Jan
- AoB

Action items:

Date	Description	Status
	None	

Attendees
- ☑ George Adams
- ☑ Stewart Addison
- ☑ Carmen Delgardo (guest)
- ☑ Tim Ellison
- ☑ Scott Fryer
- ☑ Severin Gehwolf
- ☐ Shelley Lambert
- ☐ Andrew Leonard
- ☐ San Hong Li
- ☐ John Oliver
- ☐ Martijn Verburg
- ☐ Lan Xia

Meeting called to order at 14:04 GMT

Minutes:
- Approval of [minutes](#) of the November 26th meeting.
  - Minutes were approved
- Approval of [statement](#) for December 3rd meeting.
- Approval of [statement](#) for December 10th meeting.
  - Both statements were approved.
- Review of outstanding actions.
  - None
- Review of GitHub [issues](#) and [discussions](#) flagged for PMC agenda
  - Enabled the creation of EXEs via Inno Setup ([installer#1298](#))
  - Current Wix tool for creating the Windows installer, proposal to move to Inno.
  - Will be quite a substantial change to the customer experience if they are used to deploying "msi" files.
  - Msi's are well understood for unattended installation that would require further guidance for how to achieve with the exe's.
  - The "exe"s produced by this tool are the preferred forward direction for distribution of Microsoft software. However, this would require an update to the Adoptium API etc.
  - Requires user engagement to judge the impact.
  - Proposal to seek user feedback, and provide examples of a Temurion install by exe to get concrete experience.
- January 2026 release status
  - Expected January 20th (25.0.2, 21.0.10, 17.0.18, 11.0.30, 8u481)
  - Release champion: Shelley Lambert
  - Compliance champion: Derek?
  - Plan to dry run in the first week of January.

- - ○ Severin noted that the dev kits have been updated for 25 and 21 and will check that they have already been tried ahead of the dry run.
    - ○ This will be the point at which Alpine 3.23 is made available with a new Temurin release.
      - i. There is some discussion about making the 3.23 available early. No objection heard.
      - ii. The latest tag would then align with the latest Temurin.
      - iii. Sxa questioned whether 3.21 would be removed - the plan is not to remove it as it is still actively supported.
      - iv. Plan to deprecate 3.21 for Temurin 26.
  - Infrastructure DDoS response
    - ○ Jenkins server has been deluged with login attempts, causing some reduction in service availability. Similar behavior seen on TRSS.
    - ○ Cloudflare cannot be used to protect these machines since they are incompatible with Jenkins usage.
    - ○ Proposal to add in further OS-level protection, such as fail2ban to manage the firewall rules for us. Alternative is to create an allow-list on Jenkins provider.
    - ○ Scott will implement these in due course.
  - Request for comments on proposed compliance project blog post.
    - ○ PMC advised to take a read through and provide comments directly in doc.
  - Discuss feedback received from blog post on end of service for Temurin on Solaris and Win32.
    - ○ A couple of comments were received that set the decision in context for us.
    - ○ No objections or concerns have been heard, so we intend to proceed with removing them from the supported set.
  - Date of next meeting.
    - ○ Due to the holiday period, the next meeting will be on 7th Jan.
  - AoB
    - ○ Carmen reminded people in the PMC that EF Infra have a proposal for progressing Temurin Compliance issues with the Adoptium Infra.
      - i. She will ensure the Adoptium Infra team have access to the proposal document.
    - ○ Payment details on Azure will be updated to a new card.
    - ○ Netlify have notified the EF that there is an increase in edge function usage that will be beyond the sponsorship level we have as an open source project.
      - i. George will investigate the actual usage to help estimate the cost implication.
    - ○ Discussions underway with MacStadium about the renewal of sponsorship.
      - i. We also require access modifications that meet our requirements for Temurin Compliance.
    - ○ George noted that there have been a few website UI changes over the last couple of weeks.

Meeting closed at 14:40 GMT
