Project Management Committee
Agenda & Minutes

"The PMC as a whole, and the PMC leads in particular, are ultimately responsible for ensuring that the Eclipse Development Process is understood and followed by their Projects. The PMC is additionally responsible for maintaining the Top-Level Project's charter." [ref]

Date: 2025-July-16

Agenda:
- Approval of minutes of the July 9th meeting.
- Review of outstanding actions.
- Review of GitHub issues and discussions flagged for PMC agenda
  - None
- July release update
  - Checklist for Temurin Release July 2025 (temurin#87)
  - Release Status per Platform, Version & Binary Type (temurin#89)
  - General Retrospective for July 2025 Release (temurin#84)
- Update on GHSA-xrvg-mgj7-p5wh.
- AoB

Action items:

Date	Description	Status
2025-07-09	George will open an issue with the Eclipse Foundation Infrastructure team to request formal support on resolving the JFrog issues (support#554)	In progress
2025-07-09	Scott will open an infrastructure issue for the provisioning of Windows 2025 server machines in the test matrix (infrastructure#3965)	Completed

Attendees
- ☑ George Adams
- ☐ Stewart Addison
- ☑ Carmen Delgardo (guest)
- ☑ Tim Ellison
- ☑ Scott Fryer
- ☑ Severin Gehwolf
- ☑ Shelley Lambert
- ☐ Andrew Leonard
- ☑ San Hong Li
- ☐ John Oliver
- ☐ Martijn Verburg
- ☐ Lan Xia

Meeting called to order at 14:02 BST

Minutes:
- Approval of [minutes](#) of the July 9th meeting.
  - Minutes of the meeting were approved.
- Review of outstanding actions.
  - George opened an issue for the interactions with JFrog. It was mistakenly created as a private issue, and Eclipse Infra can mark it public if possible.
  - Scott noticed that the SHA256 issue has been resolved.
  - Scott has created a Windows 2025 machine, which will be used to image for the creation of dynamic machines in the future.
- Review of GitHub [issues](#) and [discussions](#) flagged for PMC agenda
  - None
- July release update
  - Checklist for Temurin Release July 2025 ([temurin#87](#))
  - Release Status per Platform, Version & Binary Type ([temurin#89](#))
  - General Retrospective for July 2025 Release ([temurin#84](#))
  - Some "no space on device" issues caused problems in the initial pipeline runs. This is being covered by the teams.
  - Sync with Derek for Compliance progress, and no issues seen at the moment.
    - i. Will expect the release to take longer based on change of staffing.
    - ii. Former previous members of the compliance project remain available for consultation.
    - iii. Derek has opened some EF infra tickets to resolve machines that are offline. Pawel is on vacation but we hope Fred can assist.
  - Retrospective notes are being captured.
- Update on GHSA-xrvg-mgj7-p5wh.

- ○ Update given for tooling to assist with the resolution of this issue.
- ● AoB
  - ○ George has been prototyping a Jenkins dashboard to show status of progress for project pipelines. Shows summaries of overall status and gives overview of the pass/fail information without disclosing details.
  - ○ Carmen noted that our demand for the Netlify services has increased due to the website redesign.
    - i. Requests to the changing new website design were missing the cache and going through to Netlify. This new website launch and frequent revisions exceeded the quota for the free OOS project layer that we are using.
    - ii. This has settled down now and is expected to track within the quota going forward, but we will gain confidence in that assumption with time.

Meeting closed at 14:18 BST
