

Adoptium Project Management Committee Agenda & Minutes

“The PMC as a whole, and the PMC leads in particular, are ultimately responsible for ensuring that the Eclipse Development Process is understood and followed by their Projects. The PMC is additionally responsible for maintaining the Top-Level Project’s charter.” [\[ref\]](#)

Date: 2026-06-10

Agenda:

- Approval of [minutes](#) from the May 27, 2026 meeting and statement of cancellation of the June 3, 2026 meeting.
- Review of outstanding actions.
- Review of GitHub [issues](#) and [discussions](#) flagged for PMC agenda
- PURL for OpenJDK (<https://github.com/adoptium/temurin-build/issues/3653>, <https://github.com/package-url/purl-spec/issues/858>) - how to progress this, informational JEP? Let’s create and act on a plan.
- Temurin Compliance Resiliency Plan Outline
- AoB
 - Jenkins job discarding policy

Action items:

Date	Description	Status
May 6, 2026	Shelley to pull together an agentic workflow to support PMC activities, including review/celebrate quarterly contributions. Shift this to the Semesters of Code team and remove from PMC action items.	In progress

Attendees

- ☐ George Adams
- ☒ Stewart Addison
- ☒ Scott Fryer
- ☒ Severin Gehwolf
- ☒ Shelley Lambert (joined 9:05)
- ☒ Andrew Leonard
- ☒ San Hong Li
- ☒ John Oliver
- ☐ Martijn Verburg
- ☐ Tim Ellison

Minutes:

- Minutes from the May 27, 2026 meeting were approved and a statement of cancellation of the June 3, 2026 meeting was acknowledged.
- Review of outstanding actions
 - Will remove the agentic workflow, which is now owned by one of the Semesters of Code student teams
- Review of GitHub [issues](#) and [discussions](#) flagged for PMC agenda
- PURL for OpenJDK (<https://github.com/adoptium/temurin-build/issues/3653>, <https://github.com/package-url/purl-spec/issues/858>)
 - Andrew to add comments on the package-url issue 858 and we will summarize what is needed.
 - Once summarized, Severin can assist to socialize the concept upstream.
- Temurin Compliance Resiliency Plan Outline (see link), some parts of the plan to be done ahead of July, some after July release activities complete. PMC went through the 7 sections of the outline and were invited to add/edit the plan as needed.
- AoB
 - Jenkins job discarding policy, a major job cleanup and several configuration updates have been applied to the public Jenkins server, which have improved stability a lot. While there are other configuration changes that could be tried, they are not considered essential. The Jenkins server was able to withstand 7 JDK version pipelines with testing launched in tandem over the weekend and the server withstood the load very well. July release should be far more stable than April.
 - Look at Temurin Compliance Jenkins to see if some similar configuration changes will be beneficial, helpdesk ticket raised.
 - Reproducible-Verified Icon has been approved and is now on the website.
